	I was sitting at the exit of Food Lion and E Union St doing reports. I heard squalling tires in the PVA of BiLo across the street and looked up. A blue pick up was squalling his tires by fishtailing and driving at a speed I estimated to be 25 MPH at least in the PVA. He was crossing the empty parking spaces near parked vehicles and several people who were standing in the PVA. The pick up came to the exit of BiLo directly across from me and stopped. The pick up sat there <div style="text-align: right;">** Continued **</div>

	Case Status: <input type="checkbox"/> Further Inv. <input type="checkbox"/> Inactive <input checked="" type="checkbox"/> Closed		Case Disposition: <input checked="" type="checkbox"/> Cleared By Arrest / No Supplement Needed <input type="checkbox"/> Arrest / No Investigation			Arrestee Signature							

ARREST REPORT (Additional Narrative)

Agency Name	ORI	Date/Time Arrested	OCA
Morganton Department Public Safety	0120100 B0003	07/16/2014 12:28	201404601
Arrestee Name	Arrest Number		
JONES, QUINTON LEVI	105689		

for several seconds and did not pull out onto E Union St. There was no traffic coming in either direction and I did not have any lights on indicating that I was going to pull out. After about 30 seconds I turned my spot light on and aimed it at the passenger area of the pick up. I saw 2 subjects sitting in the truck. I then pulled across the street, turned on my red/blue lights and pulled behind the pick up.

I approached the drivers side of the pick up and asked the defendant, who was the driver, why he was driving recklessly. He told me that he had not squalled any tires initially, then admitted he had and said he was sorry. As I spoke to him I noticed the odor of alcoholic beverages coming from inside the truck. I asked who had been drinking and the passenger stated he had. The defendant stated he had not. I had the defendant to exit the truck with the intent to have him perform a battery of SFST's. I asked him if he had any guns, knives, drugs or anything that would kill me on him. He told me of a pocket knife in his pocket. I had him face the drivers side bed of his truck and place his hands on it so I could remove the knife (for my safety). As soon as I touched the knife the defendant brought his left hand down to his left pocket. I pushed him against the side of the truck pinning his arm and keeping him from moving further. I then had him move his hand slowly back up to the bed of the truck and keep both hands in sight until my back up arrived.

Once my back up arrived I cuffed the defendant and searched him. In his watch pocket was a small glass bottle with half a ladder of Xanax (Schedule IV) . He stated that it was not his and he didn't know where it came from. I uncuffed the defendant and had him perform a battery of SFST's. There were numerous indicators of impairment visible during his performance of the tests. His PBT tests also showed positive for the presence of alcohol, but the alcohol level did not match the level of impairment.

I formed the opinion that the defendant had consumed a sufficient amount of an impairing substance to appreciably impair his mental and physical abilities. I believe that he was impaired by a combination of alcohol and controlled substances. I placed him under arrest for DWI and possession of the Xanax.

I brought the defendant to BCDF and administered an intoximeter test. The defendant submitted to the test, but his alcohol level still did not match his level of impairment. We then went to MDPS where the defendant cooperated with a drug evaluation. I was able to see more signs of impairment and form an opinion as to the categories of impairing substances.

I read the defendant his chemical test rights for a blood test. He asked me what would happen if he refused to provide a sample. I explained about the revocation of his license and me being able to get a search warrant for the blood. I explained this about 10 times. The defendant asked to call someone for advice and I gave him access to a phone. After he made his phone call he told me that he would not provide a sample of blood for the test.

I filled out a search warrant for the blood sample and swore to it before the magistrate. I then took the defendant to CMC-Morganton and had a sample of blood taken. The sample will be sent to the SBI lab for testing. The defendant asked me while there how I could get the sample of blood since he had refused and I pointed out I had gotten the search warrant. He acted as though he did not know what I was talking about.

We returned to the magistrates office and he was given a \$1,500.00 secured bond for my charges. I also served him with an order for his arrest that was active. He was given a \$3,000.00 secured bond for that charge and a court date of 08/08/2014. I transported the defendant to BCDF and left him in their custody.

The time I was with the defendant he seemed to become more impaired. By the time I finished he was not able to walk in a straight line and his speech was more slurred than when I first contacted him. He also had difficulty in remembering what he had been told repeatedly over the course of the investigation (search warrants, consequences of refusal, bonds, etc...).

The Xanax was placed into evidence under tag # 22855.
