Sgt Buchanan drove past. Sgt Buchanan located the defendant again parked in the travel lane of 5th St off of Caldwell St with the interior light on. He pulled behind her and turned on his emergency lights. The defendant then pulled forward into a cul de sac and came to a stop.

Sgt Buchanan approached the defendant and noticed slurred speech as he spoke to her. He called for me to come to the scene to assist in the investigation.

Upon my arrival I found the defendant still seated in the drivers seat of the running car. I had her exit the car to speak with me and conduct some sobriety tests. I noticed that the defendants pupils were not reacting to varying lights conditions and there was some slurring to her speech. She told me that she had came to the area to pick up a black male that was supposed to fix a broken window at the restaurant she works at. I asked her if she had any back or leg problems and she told me she did. She stated she had tumors on her spine, herniated and bulging discs. She also had her left foot wrapped where she had chipped a bone earlier. She also said she had fallen at work that evening. I administered an HGN/VGN test, a sway test, a finger to nose test and reciting the alphabet G-Y. I noticed indicators of impairment during her performance of these tests. I also noticed a large amount of bright white powder residue in both of her nostrils.

I formed the opinion that she had consumed a sufficient amount of an impairing substance to appreciably impair her mental and physical abilities. I believe that she was impaired by a controlled substance. I placed her under arrest for DWI at that time.

PSO Huffman and her K9 were at the scene also. The K9 indicated on the outside and inside of the car. A pen barrel with the ends broken off was located in the glove compartment. Inside the barrel was bright white powder residue similar to the powder residue in the defendants nose. There was also residue found throughout the interior of the car. I cut a piece of the pen off and tested it with the powder residue in a test kit for Cocaine. It showed positive for the presence of Cocaine. The residue in the car also showed positive for Cocaine when tested with a "narc" wipe.

I brought the defendant to MDPS and conducted a drug evaluation. The defendants attitude grew more hostile and belligerent as the evaluation progressed. At the end of the evaluation read the defendant her chemical test rights and had a copy laying on the desk for her to read along with. When I finished reading the rights she flipped the paper at me and said "No, No test.". I marked this a a refusal and Informed her I would be seeking a search warrant for the blood sample. I recuffed her and secured her in the room as I prepared the search warrant.

After I finished he search warrant I transported the defendant to the magistrates office. I swore to the search warrant and served it on the defendant. We then went to CMC Morganton. At CMC Morganton I had a sample of blood drawn and it will be sent to the SBI lab for testing.

We returned to the magistrates office and she was placed in jail under a custody release. The paraphernalia was placed into evidence under tag # 21237.

The defendant told me several times that the charges would be dismissed. She stated that all she needed to do was "whisper the right thing into the right persons ear" and it would go away. She said she would contact the BCNTF and they would gets the charges dropped. She told me that she is friends with the judges in the county and they would not let her be charged with anything. She did not like that I took her to BCDF after the magistrate placed her under a custody release. She wanted me to leave her there with the magistrate watching her or take her to MDPS so she could call someone to get her there. I explained that she would be taken to jail and she stated I was singling her out because she knows that others are not treated that way.
