	The defendant was a front seat passenger in a car I had stopped (the driver was not properly licensed). I noticed injection marks on the inside of both of the defendants arms while I was speaking to the occupants of the car. I was given consent to search the car by the owner/driver. I asked all of the occupants if <div style="text-align: right;">** Continued **</div>

there was anything I needed to know about and specifically said needles/syringes. None of the occupants stated there was anything I needed to know about. In the defendants purse I located a black wallet. In it was 2 plastic straws that had been cut . They both had a powder residue inside of them. There was also a seemingly empty pocket in the wallet, but on closer inspection I saw some very small crystals. I tested the crystals and they tested positive for Methamphetamine. The defendant admitted it was "Meth" but said that it was from a long time ago. I also located 4 syringes (unused) in 2 separate pockets of the defendants purse. She admitted she had shot up some Heroin a couple of weeks ago and had forgotten about the syringes.

I cited the defendant and she was allowed to continue on her way. The paraphernalia was placed into evidence under tag # 21340.
