PUENTES, ROBERTO GAMES			105545

left side curb. I turned on my red/blue lights and passed the car in front of me. I pulled behind the defendant as he made a right hand turn onto McGalliard St. The defendant pulled partially off the street onto a gravel drive of a residence.

I approached the drivers side of the vehicle and explained to the defendant why I had stopped him. I asked him for his license and he told me he had none. I asked for his ID card and he gave me a Guatemalan ID card. I noticed his eyes were bloodshot in appearance and there was an odor of alcoholic beverages about him. He denied drinking when I asked him.

I retrieved my alcosensor and administered an alcosensor test. He would not blow at first, but just hold the mouthpiece in his mouth. The defendant finally gave just a millisecond breath sample and I got a "snap shot" of it. He tested positive for the presence of alcoholic beverages. I had him exit the vehicle and administered another alcosensor test after 5 minutes had elapsed. Once again he tried to trick the instrument by not blowing and actually spit into the mouthpiece at one point. I got a new mouthpiece and collected another "snap shot" sample. It too was positive for the presence of an alcoholic beverage.

I formed the opinion that the defendant had consumed a sufficient amount of an impairing substance to appreciably impair his mental and physical abilities. I believe that he was impaired by alcoholic beverages. I placed him under arrest for DWI and NOL at that time. I had found he had an inactive NC license/ID number.

I had a translator meet us at BCDF where I administered an intoximeter test. He requested to call someone and was given access to a phone. After about 15 minutes he did place a call. The defendant would not follow directions when I administered the test. He would hold the mouthpiece in his mouth without blowing or stop blowing before a sample was collected. The bars on the intoximeter screen would not go even an inch before he would stop blowing. I warned him several times and explained to him how to perform the test over and over. The instrument timed out 2 times. The third time I set the instrument up I told the defendant that this was his last chance before I took his blood. He provided an insufficient sample. The second attempt his breath was dropping (I watched the bar start dropping) and the instrument collected a sample. On the attempt to get a second sample he gave an insufficient sample as he had been doing earlier. I marked it as a refusal since he would not follow directions and also got the .17 result from the sample that had been collected.

I brought the defendant to the magistrates office where 2 of his friends arrived and paid his bond so he could go home. I also issued him an ecitation for reckless driving. This was due to him crossing over the opposite travel lane twice, there being a car in front of him and 2 cars including myself behind him and it being in a residential area.
